I lease my truck for towing RV's. I Have XM Satellite in my truck. It is WONDERFUL! Not only do I hear good music of my choice, without losing the station, I can hear of bad weather and traffic accidents. This gives me and other truckers time to take an alternate route around them. Right now there is a wreck in Oklahoma, on I-40& I-44. Knowing this truckers can use their CB radios to let other truckers and traffic with CB's know, thus avoiding a long backup of traffic. We bought XM for this reason. The Hurricane in Indiana last week is a good example. XM helped my husband track the storm and avoid the worst of it. If we pay for it, WHY DO YOU WANT TO TAKE IT AWAY FROM US? There is enough regulations now. Please don't take the weather and traffic off of XM. It helps and may have saved some lives. Thank you, Barbara Murray
